To: nancy.bower@lacity.org

Nancy,

We need to add a few more electrical outlets to the corner of 6th & Mesa St. We also want to fill in one of the planters to accommodate our bands. Currently, people need to stand on the sidewalk or across the street.

I need to make this modification very soon as we have been granted a \$50,000 grant for music and need to make these minor changes in order to begin the programming.

Would the BSL be able to add the outlets?

Thank you.
